Current period begins: 01 February 2026 **Current period ends:** 31 January 2027

VISION

VISION BENEFITS

This patient has vision cover under their plan. Please [contact us](#) as limits may apply.

AREA OF COVER: AFRICA

SUMMARY OF STANDARD EXCLUSIONS

In general, coverage from Cigna reimburses appropriate charges for medically necessary care, according to the norms in the country where the care is provided. **Medically necessary care** includes services or supplies that are:

1. required to meet the essential health needs of the patient,

2. consistent with the diagnosis of the condition for which they are required,

3. consistent in type, frequency, and duration of treatment with scientifically based guidelines as determined by medical research,

4. required for purposes other than the convenience of the provider or the comfort of the patient,

5. rendered in the least intensive setting that is appropriate to the case.

EXCLUSIONS

What follows is a list of services that are typically excluded. **The list is intended as a general guideline only. If you have questions about exclusions, please [contact us](#) directly.** Cigna's coverage can vary because employers may select their own lists of covered and excluded benefits.

1. **Cosmetic treatments** are normally excluded from coverage as not medically necessary. Surgery or therapy is cosmetic if it is performed to improve appearance or self-esteem.
2. **Experimental treatments** are ordinarily excluded from coverage. Experimental treatments are those that the existing peer-reviewed, evidence-based scientific literature has not demonstrated to be safe and effective for treating or diagnosing the condition or sickness for which their use is proposed.
3. Cigna will not pay claims for which payment is **illegal** under applicable law.
4. The **patient's coverage** must be effective on the date that services are rendered. Please pay careful attention to the effective dates listed on this site.
5. **Work-related injury or illness** is normally covered by a Workers' Compensation fund or plan, and not by the Cigna medical plan.
6. The **following services** are excluded from coverage regardless of clinical indications: Macromastia or Gynecomastia Surgeries; Abdominoplasty; Panniculectomy; Rhinoplasty; Blepharoplasty; Redundant skin surgery; Removal of skin tags; Acupressure; Craniosacral/cranial therapy; Dance therapy, Movement therapy; Applied kinesiology; Rolfing; Prolotherapy; and Extracorporeal shock wave lithotripsy (ESWL) for musculoskeletal and orthopedic conditions
